Angel Garcia Martinez

Creative Technologist | Multimedia Production · Web Development · AI Automation

San Jose, CA · angelgm.tech@gmail.com · linkedin.com/in/angelgtech · Bilingual English / Spanish

SUMMARY

Bilingual creative technologist who builds the tools behind the work. At Sunday Friends Foundation I design and build, with Claude Code, the data, inventory and reporting systems a nonprofit runs on, and I produce its weekly email stories. I also shoot and edit events for Addie's Photography, build WordPress sites for small businesses, and script After Effects, Blender and Python pipelines that turn raw event photos into finished reels at my studio, HIGHCLOUDSTUDIOS. Google IT Support certified; in tech since 2008.

SKILLS

- **Creative production:** Adobe Premiere Pro, After Effects, Photoshop, Lightroom; Canva; Blender 5; pixel art and motion graphics; event photography and videography; color grading; Instagram Reels and Stories
- **Scripting and automation:** Python (Flask, Pillow, SQLite), Google Apps Script, After Effects ExtendScript, Blender Python (bpy), ffmpeg, PowerShell, Bash; AI-assisted development with Claude Code
- **Web and cloud:** WordPress (themes, plugins, migrations, SEO), Squarespace, Mailchimp, DNS and domain transfers, hosting and backups, Google Workspace, Google Cloud APIs (Gmail, Drive, Calendar, Sheets, Docs)
- **People and operations:** client communication, event logistics, volunteer coordination, training and tutorials, bilingual English / Spanish

EXPERIENCE

Operations & Engagement Coordinator · Sunday Friends Foundation · San Jose, CA · Mar 2025 – Present

- Designed and built, with AI-assisted development (Claude Code), the participation-points engine for a San Jose nonprofit where families earn points that unlock basic-needs support: Google Sheets and Apps Script score 3,000+ families into tiers, and a Python robot pulls PearSuite case-management exports on a schedule.
- Built La Tiendita's inventory and distribution system for basic-needs bags: pre-order forms build each packing sheet, stock updates as bags go out, and deliveries are logged from Amazon order emails. 550+ automated tests and a sandbox copy protect every update; 650+ bags reached 170+ families in Jul–Sep 2026.
- Turned paper sign-in sheets and Zoom rosters into a SQLite database (3,000+ members, 7,500+ attendance records) with a review dashboard, audit log and backups, then built funder reports on it. Food distribution from Oct 2025 to Oct 2026 reached 1,000+ families and 4,000+ people, each number linked to its scanned sign-in sheet.
- Build and send the weekly Foto Friday email to 6,000+ subscribers in Mailchimp, plus social posts, campaign emails and Squarespace page updates for events such as the Holiday Shopping Spree.
- Launched a bilingual (Spanish / English) computer class at Community Days in July 2026, designing the slides, hands-on worksheets and QR-linked resources.
- Used AI tools with Dream. Build. Mentor. Lab entrepreneurs to produce service contracts, logos and brand stories; cohort 2 graduated more than a dozen family businesses in July 2025.

Founder & Creative Technologist · HIGHCLOUDSTUDIOS · San Jose, CA · 2025 – Present

- Built an automated photo-wall recap pipeline: After Effects ExtendScript lays out a 3D wall from a folder of photobooth prints, aerender renders it, and ffmpeg encodes 9:16 and 16:9 cuts plus phone copies under 30 MB.
- Delivered recap reels for live events, including 7 cuts for one event (B.A.R).
- Build and render 3D scenes in Blender with Python scripts (bpy), from models and light rigs to turntable renders.

Web Developer, WordPress Specialist · Bay Era Digital (freelance) · Remote · Jan 2024 – Present

- Build and migrate WordPress sites for small businesses, including a Squarespace-to-WordPress move with domain transfer and Google Workspace email.
- Built the Alexis for Seaside city council campaign site with donation, volunteer and event sign-up paths (July 2024).
- Run backups, disaster recovery, performance tuning and SEO for client sites.

Co-owner & Lead Photographer · Addie's Photography · California · Jul 2016 – Present

- Shoot and edit weddings and events end to end, from equipment setup to delivery; wedding packages include 10 hours of coverage and 200 retouched photos.
- Run photobooth operations with instant photo delivery to guests by QR code, text or email.
- Edit video in Premiere Pro and After Effects; cull, retouch and color-grade in Lightroom and Photoshop.
- Keep website hosting, NAS backups and cloud storage running for the business.

Earlier: Hospitality Staff Coordinator, Servers On Demand (2009–2016) · Program Coordinator, One Economy Corporation (2008–2010) · Production Associate, Tesla (2018–2019). Full history is in the CV tab.

SELECTED PROJECTS

- **Media library web app (2026):** Flask web app for a 1,600+ item inspiration and media library. It streams video straight from disk, auto-tags items, builds thumbnails and saves named mood boards.
- **AI studio assistant (2026):** designed a Claude Code setup of 6 specialist AI agents (art, video, photography business, email, IT, research) plus 3 scheduled background agents. 5 Python safety hooks keep personal and employer data apart and pass 300+ automated checks.
- **Glitch toolbox (2026):** an ffmpeg datamosh script for video and a pixel-sorting tool for stills.
- **Saved-posts library (2026):** pulled 900+ saved Instagram and Facebook posts and reference accounts, with their captions, into one library; an AI agent sorted them onto topic shelves in reviewed batches (my own pick always wins), with one naming scheme and an undo log for every rename.

EDUCATION & CERTIFICATIONS

- **Google IT Support Professional Certificate**, Google / Coursera, Oct 2024 (5 courses: support, networking, operating systems, system administration, security)
- **IT Support Training Program**, JobTrain, Menlo Park, CA, Aug – Oct 2024
- **General coursework**, De Anza College, Cupertino, CA
- **Lisa Y. Sullivan Award**, One Economy Corporation, 2006: a $5,000 scholarship for youth who use technology to transform their communities
